Software Developer or Lead Developer - All Levels & All Platforms

Apply Now ▶

What is the Job like?

Directi is a $300+ million group of businesses, creating Internet software for millions of global users.

As a Software Developer (or Lead Developer) you will engage in product engineering efforts at Directi and work with world class dev teams to develop game-changing, globally distributed, Web 2.0 products used by millions worldwide. These products involve myriad technologies, diverse platforms, complex algorithms and the latest application paradigms such as Ajax, SOA, RIA etc and are deployed across hundreds of servers, process terabytes of traffic, and serve millions of users.

You will be involved in the entire lifecycle of a project, including strategy, vision, design, UX, coding, architecture, deployment etc, and will be chiefly expected to deliver clean, testable and well-designed code for the same.

Location(s): Mumbai, Delhi, Bangalore

Who should apply for this post?

You have the makings of an ace developer - impressive problem solving skills, sharp reasoning and a logical bent. You are passionate about programming and delivering, clean, test-covered, well-designed, scalable code.

You have a good grasp on programming fundamentals including OOPs, Design Patterns, algorithms, data structures, networking etc. You are not rigid with respect to choice of technology, are relatively platform agnostic, and open to adopting the right technology for the task at hand. You have exceptional oral/ written communication skills and a basic sense of business.

You are innately curious, and take time out to keep up with industry trends and practices. You can deliver good software at a rapid pace.

Skills:
You are acquainted with / have mastered *a few* of the below skills/tools -

Java, C#, PHP, Ruby, Python, C++, Javascript, WPF, Erlang, Haskell, LISP, Linux, Flex, XUL, Bash, Advanced Networking, Async IO, Routing, TCP/UDP, Postgres, Data structures, Advanced RDBMS, MySQL, MSSQL, neo4j, BDB, REST, SOAP, IPC, RPC, HTML, CSS, Ajax, Agile, TDD, XP, Scrum, caching, Load Balancing, Horizontal Partitioning, memcached, Multi-threading, Concurrency, Scalability, Unicode, Usability / Ux, MVC, Spring, Titanium, Ant, Watir, Selenium, Git, CVS, SVN, JIRA, ... *ad infinitum*

Bonus points:

- Knowledge of Agile development methodologies (XP, Scrum etc)
- Active blogger
- Contribution to opensource projects
- You wrote your first program on a ZX Spectrum (Add extra points if you still own the wicked cool box 🙂)
- Ability to rattle off the names of every planet from Issac Asimov's Foundation Trilogy in reverse alphabetical order

Other info

We are an extremely tech-focused company. As a techie you may also appreciate our coding puzzles page. Additionally, you may want to saunter by our latest community initiative - CodeChef - a non-

commercial, multi-platform online coding competition, featuring monthly contests in more than 35 different programming languages.

If you choose to apply you may want to take a look at our Interview Process

Benefits & Perks

Directi employees love their jobs, and not just because we offer the most competitive salaries in the industry. Our excellent benefits include everything from great medical and life insurance to meals catered by the world-famous Taj Hotel. Our workspaces are comfortable and fun, complete with bean bag chairs, ping pong tables, and all of the snacks you can eat. We have no dress code (tee-shirts are a-ok!) and we take breaks to play games or chat whenever we like. In addition, we have flexible work hours and flexible

holidays, which means that employees pick their own hours and can take longer vacations 🙂. Speaking of vacations, did we mention that Directi has its own concierge that functions as a travel agency?

In short, all of our policies are geared toward making our employees love their jobs. For us, the bottom line is productivity. We are passionate about building the next generation of web products, and we believe that happy employees are the key to achieving this goal. If you like the idea of working in an exciting workspace on cutting-edge internet products that make a truly global impact (and wearing flip-flops to work), then we want to get to know you!
